I finally got around to watching this movie. I generally avoid any media made about 9/11 tropes, as they're virtually always incoherent or Islamophobic, but a friend recommended it. After watching, I wish I would've been able to see it in theaters & left profanity in a physical copy emotionally. It is not for the faint of friend. The consensus of the director is spot.

The Order is a dramatized retelling of the story of Robert J. Matthews & the Silent Brotherhood. Although Matthews is the films antagonist, he dominates both the scr screen time & the film as a whole. He certainly carries scenes as the main character, while the actual protagonist is rather forgettable for its both of his & Lori Lake, who performs fantastically. To get the criticism of the film out of the way, I'll start with the negatives. Actually, I'll get all of the scores are as beautiful as the countryside of the Pacific Northwest which they portray. Further, taking place in the 90's, it is one of the most underrated & nostalgic time period I've seen. Comparable to Stranger Things. Pacing, music, effects, all are professionally executed & pleasant to look at. The only noticeable exception is a specific explosive scene, which is still about a 1/10. It only sticks out because of how flawless everything else is.

But I don't really care to write about that, nor do any of you care to read about it on this publication. What I'm going to focus on is the actual story, focusing on the historical accuracy of the events portrayed.

The film opens with a scene portraying the murder of Walter West. This isn't actually explained anywhere in the film, but West was a member of both the Aryan Nations & the Silent Brotherhood. He was murdered by Bob Mathews, a fellow white supremacist, because he was suspected of being a fed or an informant. Mathews is the film's antagonist, for dominates both the scr screen time & the film as a whole. He certainly carries scenes as the main character, while the actual protagonist is rather forgettable for its both of his & Lori Lake, who performs fantastically.
